COMMONWEALTH OF MASSACHUSETTS

Massachusetts Executive Department Publications

1972

DOCUMENTS  
SECTION

State Library of Massachusetts

State House

Boston, MA. 02133

PUBLICATION OF THIS DOCUMENT APPROVED BY ALFRED C. HOLLAND, STATE PURCHASING AGENT.

Cumulative Listing of  
Publications of Massachusetts Executive Agencies  
(with some selected publications of the General Court)  
received in the State Library of Massachusetts  
during 1972.

This is an author-subject index which has been simplified for convenience. In many cases the author agency has been shortened so that only the department is indicated, skipping the specific division which actually published the item. Similarly, many authors will be found re-arranged from their official phrasing. All short-cuts were selected with caution against possible confusion.

This listing does not include all of the entries that were listed in the monthly bulletins of 1972. Eliminated were all legislative documents (which are separately listed in the Index of Special Reports Authorized by the General Court). Also omitted were the various advance listings of the acts and resolves of the Commonwealth, and separate publications of the laws of specific agencies. Rules and regulations are included when received by the State Library. Most bulletins of the state colleges, the University of Massachusetts, and the hospital schools, and some items that have no continuing interest have not been included.

An asterisk indicates that the item has been issued, but not published. A copy may be consulted at the State Library, but does not circulate. Copies are not available from the author.

Serials are indicated by a lack of paging; the earliest publication of the series is shown in curves. Frequency of publication is shown in the entry when known. For some monographs and special studies the Commonwealth is actually only the sponsor; the principal author does appear in the original listing in the monthly bulletin. Similarly personal author's names are usually skipped. In cases of title variations over the years, the current title is used. When a

publication lacks a date, the month when it was received in the State Library is indicated and its initial is underlined. Quotation marks around a title indicate periodical publications.

Monthly, quarterly and annual reports invariably contain statistics. All other entries with a heavy statistical content are followed by (S).

All of the entries are official publications of the Commonwealth; all are in the State Library's collection and may be consulted there. For listings of publications about Massachusetts (government, places, people, etc.) which have recently been added to the Library's collections, see the monthly bulletin, MASSACHUSETTS MATERIAL.

To obtain any of the titles (except those which are starred), write ONLY to the indicated author agency. For titles which are priced, or which are marked "PD" write to the Division of Public Documents, 116 State House, Boston, MA 02133.

August 15, 1973

Adjutant-General.

1

Film box 73/1      General orders, miscellaneous, 1972. Occasional (1800) 52 nos.

Aeronautics Commission.

629.4M3/A25r      Annual report (1939) 1971.

COMMONWEALTH OF MASSACHUSETTS

U OF MASSACHUSETTS LIBRARY

Massachusetts Executive Department Publications  
1973

State Library of Massachusetts  
State House  
Boston MA 02133

PUBLICATION OF THIS DOCUMENT APPROVED BY ALFRED C. HOLLAND, STATE PURCHASING AGENT.

700-9-74-106020

Estimated Cost Per Copy \$0.82

Cumulative listing of  
Publications of Massachusetts Executive Agencies  
(with some selected publications of the General Court)  
received in the State Library of Massachusetts  
during 1973.

This is an author-subject index which has been simplified for convenience. In many cases the author agency has been shortened so that only the department is indicated, skipping the specific division which actually published the item. Similarly, many authors will be found re-arranged from their original phrasing. All shortcuts were selected with caution against possible confusion.

This listing does not include all of the entries that were listed in the monthly bulletins of 1973. Eliminated were all legislative documents (which are separately listed in the Index of Special Reports Authorized by the General Court). Also omitted were the advance listings of the acts and resolves of the Commonwealth, and separate publications of the laws of specific agencies. Most bulletins of the state colleges, the University of Massachusetts, and the hospital schools, and some items that have no continuing interest have also been excluded.

An asterisk indicates that the item has been issued, but not published. A copy may be consulted at State Library, but does not circulate. Copies are not available from the author.

Serials are indicated by a lack of paging and the earliest publication of our holdings is shown in curves. Frequency of publication is shown in the entry when known, and in cases of title variations over the run, the current title is used. When a publica-

tion lacks a title-date, the month when it was received at State Library is shown with its initial underlined. Quotation marks around a title indicate periodical publications.

Monthly, quarterly and annual reports usually contain statistics. All other entries with strong statistical content are followed by (S).

All of the entries are official publications of the Commonwealth; all are in the State Library's collection and may be consulted there. For listings of publications about Massachusetts (government, places, people, etc.) which have recently been added to the Library's collections, see the monthly bulletin, MASSACHUSETTS MATERIAL.

To obtain any of the titles (except those which are starred), write ONLY to the indicated author agency. Most agencies may be addressed at the State House, the exceptions being noted within. For titles which are priced, or which are marked "PD" write to the Division of Public Documents, 116 State House, Boston, MA 02133.

COMMONWEALTH OF MASSACHUSETTS

Massachusetts Executive Department Publications  
1974

State Library of Massachusetts  
State House  
Boston MA 02133

Cumulative listing of  
Publications of Massachusetts Executive Agencies  
(with some selected publications of the General Court)  
received in the State Library of Massachusetts  
during 1974.

This is an author-subject index which has been simplified for convenience. Some author names have been re-arranged but adjustments were made with caution against possible confusion.

This listing does not include all of the entries found in the monthly bulletins of 1974. Eliminated are all legislative documents (which are separately listed in the Index of Special Reports Authorized by the General Court), separate publications of the laws of specific agencies, most bulletins of the state colleges and the University, and some items of no continuing interest. Furthermore, we no longer include those regulations which are published by the Secretary of the Commonwealth and sold in his Division of Public Documents, 116 State House. But we do list those regulations we have received, which are not required by Chapter 30A to be published by the Secretary, and the Library will continue to maintain a fully indexed collection of all state regulations, as received.

Finally, periodicals will be found in a separate alphabet at the end of the main listing.

An asterisk preceding the title indicates that the item has been issued but not published. A copy may be consulted at State Library, but it does not circulate. Copies are not available from the author/agency.

Serials are indicated by a lack of paging and the earliest number in our holdings is shown in curves. Frequency of publication is shown in the entry when known, and in cases of title variations over the run, the current title is used. When a publication lacks a title-date, the month of its receipt at

State Library is shown with the initial of the month underlined. (S) at the end of an entry indicates that the entry includes statistics. In addition, statistics will be found in almost all annual, quarterly, monthly and weekly reports.

Items that are marked PD at the end of an entry, the Acts and Resolves, and most items that are priced are available from the Secretary of the Commonwealth's Public Documents Division, State House, Boston. All other items MUST be requested from the agency shown as author. Most agencies may be addressed at State House, Boston MA 02133, but the exceptions are noted.

All of the entries are official publications of the Commonwealth; all are in the State Library's collection and may be consulted there. For listings of publications about Massachusetts (government, places, people, etc) which have been recently been added to the Library's collections, see the monthly bulletin, MASSACHUSETTS MATERIAL.

June 30, 1975

ADJUTANT-GENERAL

905 Commonwealth Avenue, Boston 02115
